

ST-PROFESSIONAL-TRANS

SPECIAL ACRYLIC GLASS PROJECTION SCREEN

CLEAR PROJECTION SCREEN

ST-Professional-Trans is special clear transparent rear projection screen on which you can see through during the projection. The image is visible from both sides, but mainly a rear projection diffusion type screen

The image is clear, sharp, bright and offers fair contrast even under brighter environments. Surfaces are semi-glare on both sides. The screen is to use for holographic effect projections.

BETTER IMAGE QUALITY

Absolutely pure image quality without any structure or sparkling. This diffusion type screen is hot-spot-free with broad viewing angle. The image is created inside the screen and enabled brilliant color projections with any projector. 3D ready with polarized light.
